RE: Complete Plan Modification Submitted

Dear Mr. Indergard:

Your Plan of Operations Modification to conduct back fill operations in the Centennial Pit in T30S R25E sections 25, 26, 35, and 36, San Juan County, Utah, was received in this office on March 11, 2015. Consistent with the surface management regulations at 43 CFR 3809.411(a), the BLM has reviewed the Plan Modification and has determined that the filed Plan of Operations Modification meets the content requirements at 43 CFR 3809.401(b) and 43 CFR 3809.401(d). Note this notification does not constitute authorization to commence operations nor is the submission of a complete Plan Modification necessarily adequate to meet the performance requirements of the regulations and avoid unnecessary and undue degradation.

Be advised the next step in the review process is for the BLM to solicit public comment on the Plan of Operations Modification under 43 CFR 3809.411(c), either separate from or as a part of the environmental review process required by the National Environmental Policy Act. Soliciting public comment must occur before making an approved/not approved decision on the Plan of Operations Modification according to 43 CFR 3809.411(d). The BLM estimates that we will complete our environmental analysis and make an approval decision on the Plan Modification by June 30th, 2015.

If you have any questions, please contact David Pals at (435)-259-2113 or by electronic mail at dpals@blm.gov.

Sincerely,
Acting /s/ Lisa Bryant

Walter Birkenheier
Acting Field Manager
